Announcement

GP900, GP1200, MTS2000 Portable Radios approved to ATEX

13th June 2003

Introduction and Background

As a consequence of implementation of the ATEX directive 94/9/EC for equipment and protective systems intended for use in explosive atmosphere, we will launch ATEX approved versions of the GP900, GP1200 and MTS2000 radios.

All these radios are approved to ATEX protection class

II 2 G EEx ib IIB T4

To get additional information on the ATEX standard, please refer to our information on Motorola Online (Resource Center: Product and Technical Information – Announcements – Frequently Asked Questions - ...)
